Impact if Closure of NVTC Delayed

6 Month Delay

Current Closure Date	Closure Date if 6 Month Delay	Gross GF Cost Estimate ¹	Net GF Cost Estimate ²
06/30/15	12/30/15	\$ 3,583,255	\$ 2,140,283

Current Closure Date	Closure Date if 12 Month Delay	Gross GF Cost Estimate ¹	Net GF Cost Estimate ²
06/30/15	06/30/16	\$ 7,234,700	\$ 4,153,759

¹ Gross cost estimates based on unrealized facility savings associated with delayed reduction in staffing and indirect costs

² Net cost estimates based on unrealized facility savings offset by cost of waivers for individuals whose discharge is delayed

- Estimated costs are projections only. It is unclear how a delay would impact the discharge trend – any delay could influence individual and family decision-making impacting the timing of discharge and the associated facility savings and waiver costs.
- Additionally, NVTC may likely have to alter operational strategies and enhance financial incentives to entice staff to stay on in an uncertain environment or provide for contractual support with a higher cost structure.
- If a decision to delay occurs, the impact is primarily the 2014-2016 biennium.

NVTC	FY15 & FY16 GF Costs
6 Month Delay	\$1,699,469
12 Month Delay	\$3,025,876
